The Tan Sri Dr Abdullah Sanusi Digital Library Newsletter

No.9 / Mac 2008

### Introducing the Library through i-Radio

iRadio was first introduced to the OUM's campus community in March 2007. It focuses on the learners' educational and informational needs while having a good time.

As an information provider, the TSDAS Digital Library was given a segment, called E-Library, to disseminate information and introduces services and collections to the students. The segment started since September 2007 and is airing every Tuesday from 3.00 until 4.00 pm. The Library staff take turns hosting the segment with different topics ranging from general services and collections, to specific book reviews.

**Notis Pemberitahuan**  
Sempena menyambut Hari Keputeraan Yang Dipertuan Agung & Hari Keluarga OUM, **Perpustakaan akan ditutup selama 2 hari pada 7-8 Jun 2008 ini**. Perpustakaan akan beroperasi semula seperti biasa pada hari berikutnya (Isnin, 9 Jun 2008).

**Patron ID & Password for New Students**  
Please be informed that access to Digital Collections does not require Patron ID. However students will have to access Library Portal from LMS in order to access Digital Collections. We are still uploading user details for new students.

**ProQuest Dissertations & Theses [more info]**  
Please be informed that ProQuest Dissertations & Theses Database has been merged with ProQuest Database. Access to ProQuest Dissertations & Theses is now available through [ProQuest Link](#) on the sidebar. **ProQuest Dissertations and Theses Full Text** (PQDT Full Text) now offers supporting materials. Inclusion of these supplementary materials enhances the scholarly record and ensures graduate schools and students future access to this valuable research data.

**New Trial Database**  
**ScienceDirect**  
ScienceDirect contains over 25% of the world's science, technology and medicine full text and bibliographic information. Apart from online eBooks, Reference Works, Handbooks and Book Series, ScienceDirect offers a rich journal collection of over 2,000 titles. In addition, the Backfiles program offers the ability to search a historical archive of over 6.75 million articles directly from your desktop, back to Volume 1, Issue 1. The collections contain 4 million articles prior to 1995, and 2.75 million articles from after 1994.
